PROFILE SUMMARY

Well-rounded software developer, with a strong background in engineering. Possessing extensive experience in web development and cloud architecture through scholarship opportunities, working with talented teams on internships and programming competitions.

CORE SKILLS

- Full Stack Web Development (JS, NodeJS, PHP, Python, React, Flask, Laravel, Vue etc.)
- Database (SQL, CQL, NoSQL)
- Azure Cloud Computing (SaaS, PaaS, IaaS, AI/ML, Azure Functions, Cosmos DB, AKS, Cognitive Services, etc.)
- Google Cloud Computing (SaaS, PaaS, IaaS, IAM, Google Analytics, GKE, Google APIs, Google Ads, etc.)
- Markdown | HTML5 | CSS3 | Sass (SCSS) | Bootstrap | Tailwind CSS
- DevOps | CICD | Bash (Scripting) | Docker | Kubernetes
- Project Management
- Graphics Design
- Engineering Design and Analysis
- Technical Reporting

PROFESSIONAL EXPERIENCE

- **Andela (Google Africa Developers Scholarship)**

  Google Cloud Platform (GCP) Track **Mentor**

  May 2021 - Ongoing

  - Mentoring two teams of African talents on the basics of Google Cloud Platform Infrastructure.
  - Volunteered to answer

- **Credbolt (**_Loan App_**)**

  Full-Stack Developer

  June 2021 – August 2021

  - Collaborated with a 3-man agile team to deliver features t the Loan App in a timely manner.
  - Reorganized page structure and dynamic loading data using proper application of VueJS and _DRY_ principles to improve page loading.
  - Improved code base architecture and organization for efficient deployments

- **Microsoft Azure AI Hackathon**

  [Top 50 Finalist](23rd)

  January 2021 – April 2021

  - Implementation of Azure Machine Learning and Artificial Intelligence to help categorized high priority images to save (literally & figuratively) rare or nearly extinct wildlife.

- **Datastax Holiday Hackathon**

  [Top 10 Finalists(4th)](#) and [EMEA Category Winner](#)

  December 2020 – February 2021

  - Applied the MERN stack with the addition of DataStax Astra serverless functionality to create a wildlife conservation project about creating entries of newly discovered, rare, or near-extinct life discoveries on earth for the world to see.

- **Bertelsmann Technology Scholarship Program**

  Azure Cloud Computing

  December 2020 – March 2021

  - Gained practical experience on Azure compute services, security and monitoring on Azure, Azure storage.
  - Deployed a Content Management System (CMS) for articles to Azure.

- **Andela (Google Africa Developers Scholarship)**

  Google Cloud Platform (GCP) Track

  May – December 2020

  - Gained practical experience on GCP Virtual Machines, Virtual Networks, GCP Infrastructure Automation (Terraform), GCP Storage and Database, Kubernetes etc.

- **IGLUM Nig. Ltd. – Ikorodu, Lagos**

  Full Stack Web Development (Freelance)

  September 2019

  - o Utilized the MERN Stack to build Web Ap
  - o Designing user interactions on web pages
  - o Assisted in troubleshooting issues on web-based systems.

PROFESSIONAL QUALIFICATIONS

Microsoft, One Microsoft Way, Redmond, Washington   **2021**

Azure Developer Associate

Microsoft, One Microsoft Way, Redmond, Washington   **2021**

Azure Administrator Associate

Microsoft, One Microsoft Way, Redmond, Washington   **2021**

Azure Fundamentals

Aviatrix, 2901 Tasman Drive, Santa Clara, CA   **2021**

Multi-Cloud Networking Associate

Novelle Centre, Ikeja, Lagos   **2019**

Project Management Professional certificate

EDUCATION

Udacity, Emeryville, California, United States (*Virtual*)   **2021**

Nanodegree – Cloud Developer (*Azure*)

University of Ibadan, Ibadan, Oyo State   **2015- 2019**

B.Eng. - Wood Products Engineering

Lagos State Polytechnic, Ikorodu, Lagos State.   **2013-2015**

National Diploma - Mechanical Engineering

INTERESTS AND ACTIVITIES

Reading, Writing, Chess, Traveling and Tennis.
